Rule 1115 required subject forms to be "Postmarked not later than the 24th. day of the next succeeding month". The distribution is identified on the form.

Allowables will be revised by supplement to the Oil & Gas Proration Schedules when subject reports are received.

THE BELOW LISTED WELLS SHALL BE SHUT-IN UNTIL FURTHER ORDER OF THE DIVISION:

Corbin Queen

This Well is DHC 309 with Maljamar G-SA

12/23/91

Please find attached an amended completion report for subject well. The completion interval was reported incorrectly on the original report dated 10/11/79. As reported on subsequent sundry notices the Queen zone has been squeezed and we are currently producing only out of the Maljamar G-SA zone.

Very truly yours,

Please direct any questions to me
