

#4 Location of Existing and/or Proposed Facilities:

A. Within one (1) mile radius of location, show the following existing facilities owned or controlled by lessee or operator:

- (1) Tank Batteries: See Diagram "E" & Map "B".
- (2) Production Facilities: See Diagram "E" & Map "B"
- (3) Oil Gathering Lines: See Diagram "E".
- (4) Gas Gathering Lines: None.
- (5) Injection Lines (indicate if any of the above lines are buried: None.
- (6) Disposal Lines: None.

B. If new facilities are contemplated, in the event of production, show:

- (1) Proposed location and attendant lines by flagging if off of well pad:

All facilities will be kept on the well pad. Gas sales will not be determined until after well is completed.

- (2) Dimensions of Facilities: See Diagram "E" attached.

- (3) Construction Methods and Materials:

Tank Battery will consist of a production unit, one (1) 210 barrel stock tank, and one (1) barrel water tank. All lines will be on the surface and a 3' berm will surround the stock tanks. (See Diagram "E").

- (4) Protective measures and devices to protect livestock and wildlife.

Wellhead will be fenced and water storage tank will be flagged overhead. No pits will be left open after clean-up, but will be fenced until then.

C. Plan for Rehabilitation of Disturbed Areas no Longer Needed for Operations After Construction Completed:

Any unneeded area which has been caliched will be ripped up to below sand level and left for natural vegetation to re-occur. Sand area will not be disturbed.
