Re: Request for TA Extension
Bobbi #1Y-J Sec. 20, T18S, R36E

Gentlemen:

We are returning your request for an extension of the TA status for the above-referenced well.

Our normal procedure for TA would be to set a BP and test the well; however, since you indicate you want to hold for waterflooding, we will be able to approve a 2-year extension if you run in with a packer and test the casing. You will need to file an intent to do this work with us and cut a chart to show the well has been tested.

If you have further questions, contact me at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION
