RE: State FU #2-N
Sec. 25, T18S, R34E

Gentlemen:

In August 1992 you abandoned the Wolfcamp zone in the above-referenced well and perforated the San Andres formation. Your report indicated it was an unsuccessful recompletion attempt.

Please advise the status and future plans for this well. The well has had no production since 1988 so unless you have plans for additional recompletion work you should request permission to TA this well or submit your proposed plugging procedure.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
