17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Both the Pennzoil Federal Nos. 1 and 2 were permitted at the same time. The No. 1 was to be drilled first; therefore, 320 acres were dedicated to it. However, the No. 2 has been drilled and completed - plans are to drill the No. 1 later this year. Since the lease contains 10.45 excess acres, we felt this excess should be assigned to the last well to be drilled on the lease.
