13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Pulled rods and pump and cleaned out to RBP set at 9604'. Latched onto RBP but could not pull plug. Pulled off RBP and could not get back on plug. Economics did not justify spending additional monies to free bridge plug. RTH with production string, seating nipple set at 9330', the anchor set at 9021'. Tested pump to 500 psi, tested ok. Pump tested, last 24 hrs pumped 81 BO, 134 BW, and 35 mcf. Well is currently producing in Bone Springs formation
