ATTN: Mr. Jerry Sexton

Gentlemen:

A review of our records indicates that all gas produced from the captioned wells is being used as fuel on the lease.

The Airstrip State No. 2 well has a gas engine that requires all casinghead gas, plus additional fuel gas, for operation.

The Airstrip State No. 1 well supplies the battery treating facility with fuel gas which utilizes all casinghead gas available from this well.

Bass respectfully submits this letter in lieu of Form C-104 or Form C-129 which was requested by your letter of October 3, 1980 (copy attached).

Very truly yours,

  
J. E. Pullie  
Division Manager
