13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Floyd Operating hereby requests permission to retain the TA status on the above referenced well. We are evaluating the possibility of installing a submersible pump, however, the capitol investment is not warranted at current oil prices. In order to retain the TA status, Floyd proposes to do the following:

- 1) Fill hole with 2% KCL water
- 2) Notify BLM 72 hours prior to running a casing integrity test
- 3) Test casing to 500 psi
