

11. OTHER INFORMATION: (continued)

- B. Soil: Soil is a deep fine sand and underlain by caliche.
- C. Flora and Fauna: The vegetative cover is generally sparse and consists of mesquite, yucca, shinnery oak, sandsage and perennial native range grasses. Wildlife in the area is that typical of semi-arid desert land and includes coyotes, rabbits, rodents, reptiles, dove, quail and an occasional antelope.
- D. Ponds and Streams: There are no rivers, streams, lakes or ponds in the area.
- E. Residences and Other Structures: No nearby residences. No structures other than tank batteries mentioned in 4a. The nearest water well is a windmill 1¼ miles northwest.
- F. Archeological, Historical and Cultural Sites: None observed in the area.
- G. Land Use: Grazing and hunting in season.
- H. Surface Ownership: Wellsite and all roads are on Federal surface, with exception of roads in Section 16 which are on State land, including 660' of the planned access road.

12. OPERATOR'S REPRESENTATIVES:

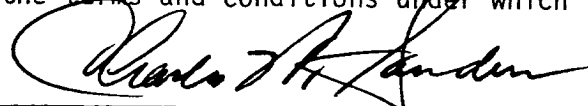

The field representatives responsible for assuring compliance with the approved surface use and operations plan are as follows:

Charles W. Sanders
3204 Candlelight, NE
Albuquerque, NM 87111
Off. Phone: (505) 293-4044
Res. Phone: (505) 294-7538

J. C. Johnson
9720 B Candelaria, NE
Albuquerque, NM 87112
Off. Phone: (505) 293-4044
Res. Phone: (505) 299-6029

13. CERTIFICATION:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Petroleum Development Corporation and its contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved.

Charles W. Sanders, Vice President
