13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was temporarily abandoned 12/1/80. A CIBP is set @ 9200' w/35' of cement dumped on it. Perforations were open 9226-9241' below this CIBP. No perforations are open above the CIBP. We intend to cut the casing as close to the TOC (6550') as possible and pull the 5 1/2" casing. The following cement plugs will be set:

Plug #	No. Sacks	Locations
1	35	100' across casing stub
2	50	4700'-4800' @ top of Grayburg-San Andres
3	50	3940-4040' @ 9 5/8" casing shoe
4	50	1845'-1945' @ Top of Salt
5	10	@ surface

The plugs will be set through open-ended tubing. The wellbore will be loaded with a mud-laden fluid. A dry hole marker will be installed. 24 hours notice will be given prior to commencing plugging.

13. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
