Gentlemen:

We have received a copy of your sundry notice to the BLM requesting the above referenced well be reclassified from salt water disposal (SWD) to water injection (WIW). Division order R-7313 approved this well for salt water disposal and you would have to request that the order be amended. We only classify wells as WIW if they are injection wells in waterflood or pressure maintenance projects.

If you have further questions concerning this, contact David Catanach in our Santa Fe office at 505-827-5807.

Very truly yours,

OIL CONSERVATION DIVISION
