

AMSTAR ENERGY CORPORATION
APPLICATION FOR SALTWATER DISPOSAL WELL

Part I

The reason for this application is a request for authorization to inject produced water for purposes of disposal into formations that shall not adversely affect fresh water sources or oil or gas producing formations. The subject disposal well is expected to be a commercial operation. The subject application does not qualify for administrative approval.

Part II

Operator: **Amstar Energy Corporation**
Address: **8416 Wayne Avenue**
 Lubbock, Texas 79424

Tommy Hinson and Gerald Bonner, Operators

Contact Party: **Gilbert P. Quintana, Regulatory Consultant**
Telephone: **505-852-4481**

Part III

Proposed Injection Well Data: Please refer to the attachment entitled "Injection Well Data".

Part IV

This is a new application and is not an expansion of an existing project. There is no Division order associated with this application.

Part V

Map identifying all wells within two miles of the well: Please refer to the attachment entitled "Area Review Map".

Part VI

This part requires a tabulation of all wells within the area of review, (1/2 mile from the proposed injection well) which penetrate the proposed injection interval. There are no wells within the area of review of the proposed well.
