Re: Division Order No. PMX-166

Dear Ms. Litzen:

I have reviewed the additional plugging data submitted on the Bowers Federal Humble Well No. 33 located in Section 29 and the McKinley "B" Sun Well No. 1 located in Section 20, both in Township 18 South, Range 38 East, NMPM, Lea County, New Mexico. After consultation with Mr. Jerry Sexton, we have determined that the Bowers Federal Humble Well No. 33 is satisfactorily plugged and need not be reentered and replugged. We have further determined however, that the McKinley "B" Sun Well No. 1 is inadequately plugged and will have to be reentered and replugged in accordance with a plugging program set forth by Mr. Sexton.

Please contact the Hobbs district office of the Division and advise of the date and time of commencement of replugging operations on the McKinley "B" Sun Well No. 1 in order that these operations may be witnessed.

Shell Western E & P Inc. is hereby authorized to commence injection operations into the NHGSAU Well No. 19-442.

Sincerely,

A handwritten signature in cursive script that reads "David Catanach".
