TO: New Mexico Oil Conservation Division
1625 N. French Drive
Hobbs, New Mexico 88240

REF: C-104 History and Intentions
Aztec Federal 22, Well No.1
UL-F, Sec.22-Y18S-R33E
1980' FNL & 1980' FWL
Lea County, New Mexico

To Whom It May Concern:

The referenced well is a well operated by EOG Resources, inc. that was purchased from Burlington Resources, Inc. in March 2000. When EOG Resources, Inc. attained this operatorship from Burlington Resources, Inc., the well was classified as TAd in the West Corbin Delaware pool. In January of 2001, EOG Resources, Inc. recompleted the well in the Corbin South Bone Spring pool. EOG Resources, Inc. is currently producing well to storage tanks on the same location as the well until EOG Resources, Inc. attains permission to commingle production with the Federal MA, well No.2 battery located in UL-I, Sec.21-T18S-R33E. The referenced well has been assigned new PODs and once well has permission to be commingled with the Federal MA, well No.2 battery a new C-104 with appropriate PODs will be filed with the NMOCD. This letter is being filed in order to effectively communicate with the NMOCD the intentions of EOG Resources, Inc. on the above referenced well. I have enclosed original C-104 in order too establish allowable and copies of completion forms filed with the BLM for your reference.

Sincerely,

Mike Francis
Agent
