RE: Proposed Recompletion
Moonrise State Unit #1
Unit M, Sec. 27, T18S, R36E

Gentlemen:

In November 1991, we approved your proposed recompletion of the above-referenced well from the Arkansas Junction Queen Gas to the Delaware formation. So far no reports have been received indicating this work has been done.

Please file completion reports, or a sundry notice indicating status and future plans for this well.

Very truly yours,

OIL CONSERVATION DIVISION
