Re: Buckeye AEV State #1-P
Section 1, T18S, R35E

Gentlemen:

PI's Well Completion Report indicates the above-referenced well was drilled to a TD of 71 feet and abandoned. Also, they indicate the well was to be turned to landowner for a water well.

The last report we have on file was submitted September 1, 1987, showing a TD of 75½ feet. Please file a status report, plugging report, or whatever is needed to bring this well file up-to-date.

In the event the wellbore is to be turned to the landowner for waterwell you will need to file the enclosed "Affidavit of Responsibility Conversion to Water Well" with this office.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
