RE: Unorthodox Location  
New Mexico "Z" State TN No. 1  
Lea County, New Mexico

Gentlemen:

Texaco Producing Inc. respectfully requests that an exception to well location requirements for the Vacuum Wolfcamp Pool be administratively granted for the referenced well as provided for in Rule 5 of the Special Pool Rules. The well was originally drilled to a depth of 12,200' and completed in the Vacuum Atoka S.W. Pool at a standard location.

Pool Rules for the Vacuum Wolfcamp call for 80-acre spacing, with wells to be located within 200 feet of the center of either the NW/4 or the SE/4 of any Governmental Quarter Section. The referenced well is not in either one of the required 1/4 1/4 sections and is 220 feet from the center of the 1/4 1/4 section.

Attached is a location plat of the referenced well and also an area plat showing offset operators to the lease. A copy of this application has been mailed to the offset operator (Phillips).

Yours very truly,

L. J. Seeman  
District Petroleum Engineer
