Re: Corbin State #1-F
Section 16, T18S, R33E

Gentlemen:

We have received a subsequent report of plug back and recompleate for the above-referenced well. It is noted you indicate the recompleated zone to be the Bone Spring. Our Geologist had examined this report and he indicates your perforations 6558-74' are Delaware-- not Bone Spring. Therefore this recompleation would come under the West Corbin-Delaware Pool. If you do not concur with this, please contact us.

In order to complete the file on this recompleation, please submit C-104 and C-105.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
