SECOND TESTING ALLOWABLE
MOBIL CAVINESS 10 FEDERAL #2
MESCALERO ESCARPE BONE SPRING
SEC 10, T-18S, R-33E
LEA COUNTY, NEW MEXICO

Dear Sir:

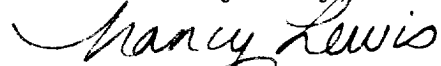

Per our conversation this date, this letter is being written to document the reason for the second request for a testing allowable on the above-referenced well.

A testing allowable for 1000 bbl was requested and received on this well for July 1988. The intention was to potential the well the first week in August, however, the perforations became loaded up with sand. The well is currently being cleaned out and the will be put back on pump by 8-5-88. A potential test will be run next week.

Attached is the C-104 requesting a 1000 bbl testing allowable for August 1988 which was verbally approved by you on 8-4-88.

Thank you for your assistance in this matter. If you require any additional information, please call the undersigned at 915-688-2583.

Yours very truly,

Nancy Lewis
