17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Chevron U.S.A. requests a 30 day temporary surface commingling permit for the Lea KG State #3 into the existing Lea KG State battery. The battery currently serves the Lea KG State #1 which is currently producing from the Corbin Abo formation. Production from each well will be monitored separately and each well tested regularly. This request serves as only a temporary permit until the formal surface commingling permits are approved

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
