Gentlemen:

The above-referenced well has been plugged and the location is ready to be released. However, before it can be released you need to file a Well Completion Report, Form C-105. This form is required even though the well is a dry hole.

A Blank C-105 form is attached.

Very truly yours,

OIL CONSERVATION DIVISION

5/31/91 Tempo took this well over from Primary State & they do not have all information need to comp C-105. they submitted C-105 for test allowable with all info they have. Tempo will send letter explaining this. I request that the FA report be released. Should be OK - but OK with JS.
