Re: State E-744-15 #1-I
Sec. 15, T18S, R33E

Gentlemen:

Form C-103 covering your change of plans to drill the above-referenced well to a TD of 11,700 feet for a possible Wolfcamp completion has been approved.

However, please be advised this well is within one mile of the South Corbin Wolfcamp Pool and a completion in the Wolfcamp will be governed by the special pool rules for this pool. This pool has 80-acre spacing proration units with the well to be located within 150 feet of the center of any quarter/quarter. Therefore, the location for this well is unorthodox for this pool and no production can be approved until you have obtain approval from our Santa Fe office for the unorthodox location.

I believe Rule 5 of the special rules for this pool will permit administrative approval of this unorthodox location.

If you have further questions, please feel free to contact me.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

ed

P.S. Please file an 80-acre plat, Form C-102, with this office for the Wolfcamp.
