Re: West Corbin Federal No. 19
North Young (Bone Spring)
Sec. 7, T-18-S, R-33-E
Lea County, New Mexico
LC-069420

Gentlemen:

Attached is an original plus five (5) copies of Form C-104 requesting 1500 barrels oil test allowable for the above referenced well. A 1500 barrel test allowable was granted in May, 1990, however, no oil has been moved due to extremely high fluid levels. There are six frac tanks now on location and we now need to move this oil to make room for testing so that completion tests may be submitted. If other information is needed, please call me at (915) 686-5647.

Sincerely,

Gayle Smith
