Attention: Mr. Michael E. Stogner

Gentlemen:

An Exception to Rule 104 F.I. by administrative approval is requested for Texaco Producing Inc.'s Vacuum Grayburg San Andres Unit Well No. 146. The well is located 1325' FNL, 1980' FEL, Section 2, T-18-S, R-34-E.

This well must be drilled in this location to ensure proper development of 10-acre spacing. Wells drilled previously on 10-acre spacing have proven to be viable wells. The well will be completed in the Grayburg San Andres formation. Phillips Petroleum Company is the only affected offset operator, and they have been notified of this application.

Attached is Form C-102 for the well and a lease plat showing existing wells, location of the subject well, and the affected offset operator.

Yours very truly,

C. P. Basham
Drilling Superintendent
on Behalf of Texaco Producing Inc.
