Ms. Evelyn Downs  
Oil Conservation Division  
P. O. Box 1980  
Hobbs, NM 88240

Dear Ms. Downs:

Please find enclosed the required copies of completed Forms C-104 and C-105 together with the deviation survey and open hole logs on our Matador 28 State No. 1 well. These are submitted as required by the NMOCD and in order to obtain an allowable for this well.

Matador would like for you to keep the C-105 and open hole logs confidential for 90 days, as provided by the NMOCD policies and as you advised in our recent telephone discussion.

I appreciate your courtesy and help in answering my questions and in expediting approval of the various NMOCD forms required in drilling and completing this well.

Very truly yours,

Les M. Carnes  
Executive Vice President

LMC/cc
