13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BTA Oil Producers respectfully requests Temporarily Abandoned Status for this well as follows:
The French #1 and #2 were the main wells utilizing the SWD well as they had the most water production. These wells are pending evaluation of possible Delaware recompletion or P&A because they are not commercial any longer. If the recompletions work out, we would need the SWD well. If they don't work out, we would be plugging the # 1, 2 and #3 French wells. The recompletion evaluation could take about 6 months.

TH Approved For 6 Month Period
