Request for Temporary Abandonment on Federal Lands  
Cochise "1" Federal #1  
Unit E, Section 1, T19S, R32E  
1650' FNL & 990' FWL

Mitchell Energy Corporation requests an approved Temporarily Abandoned status based on the following:

1. The appropriate BLM office was notified at least 24 hours prior to the casing integrity test. The test was witnessed by Mr. Steve Caffey on January 13, 1995.
2. Perforations 7472'-7500' were isolated by a CIBP (capped with 35' of cement) set at 7450'. This plug is within 50' above the perforated interval.
3. All downhole production equipment has been removed from the well.
4. The casing was filled with 2% KCL water containing oxygen scavenger. Casing was tested to 600 psi for 30 minutes being witnessed by Mr. Steve Caffey.

The subject well is ideally located for use as a water supply well for a proposed Yates waterflood. Attached map shows a rough outline of the project. Contacting of involved operators has just begun, the earliest any actual operations could start is the first quarter of 1996.
