**RE:   Injection Pressure Increase,  
      16 Wells, Vacuum Glorieta West Unit  
      Lea County, New Mexico**

Dear Mr. Carriger:

Reference is made to your requests dated July 17, 1996 to increase the surface injection pressure on the above referenced wells. This request is based on step rate tests conducted between June 20 and July 9, 1996. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on these wells is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following wells:
