| Vacuum Glorieta West Unit Well No.107                                           | 1750 PSIG                         |
| Vacuum Glorieta West Unit Well No.108                                           | 2200 PSIG                         |
| Vacuum Glorieta West Unit Well No.120                                           | 2200 PSIG                         |
| Vacuum Glorieta West Unit Well No.121                                           | 3500 PSIG                         |
| Vacuum Glorieta West Unit Well No.122                                           | 2750 PSIG                         |
| Vacuum Glorieta West Unit Well No.123                                           | 2225 PSIG                         |
| Vacuum Glorieta West Unit Well No.124                                           | 2050 PSIG                         |
| Located in Townships 17, Ranges 34 and 35 East, NMPM<br>Lea County, New Mexico. |                                   |

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay  
Director

WJL/BES
