104.D.

ACREAGE ASSIGNMENT

(1) Well Tests and Classification. It shall be the responsibility of the operator of any wildcat gas well or development gas well to which more than 40 acres has been dedicated to conduct a potential test within 30 days following completion of the well and to file the same with the Division within 10 days following completion of the tests. (See Rule 401.) [5-25-64...2-1-96]

- (a) Date of completion for a gas well shall be the date a wellhead is installed or 30 days following conclusion of active completion work on the well, whichever date comes first. [5-25-64...2-1-96]
- (b) Upon making a determination that the well should not properly be classified as a gas well, the Division will reduce the acreage dedicated to the well. [5-25-64...2-1-96]
- (c) Failure of the operator to file the aforesaid tests within the specified time will also subject the well to such acreage reduction. [5-25-64...2-1-96]

(2) Non-Standard Spacing Units. Any well which does not have the required amount of acreage dedicated to it for the pool or formation in which it is completed may not be produced until a standard spacing unit for the well has been formed and dedicated or until a non-standard spacing unit has been approved. [5-25-64...2-1-96]

- (a) The supervisor of the appropriate District Office of the Division shall have the authority to approve non-standard spacing units without notice when the unorthodox size and shape is necessitated by a variation in the legal subdivision of the United States Public Land Surveys and/or consists of an entire governmental section and the non-standard spacing unit is not less than 70% nor more than 130% of a standard spacing unit. Such approval shall consist of acceptance of Division Form C-102 showing the proposed non-standard spacing unit and the acreage contained therein. [5-25-64...2-1-96]
- (b) The Division Director may grant administrative approval to non-standard spacing units without
