Reference: Lusk Deep Unit A #19, S17-T19S-R32E-Directional Survey

Dear Ms. Baker:

Please provide the NMOCD Hobbs District Office by August 20, 2001 a directional survey for this well. The deviation of this well for the last 732 feet is over 5 degrees through this interval. If this deviation is to the south of the surface location it will put this well at a non-standard bottom hole location. The only way to avoid this directional survey is for the Marbob to attest that the offsetting mineral and royalty interest is the same.

Sincerely

Chris Williams
