Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Seely Oil Company's McElvain Federal Well No. 8 was completed during July, 2001 from Delaware perforations from 5940' to 5972'.

Since this #8 Well is on the same base lease (Federal NM 0245247) as Seely Oil Company's McElvain "A" Federal Well No. 1 and also has the same ownership, production from the #8 Well is being commingled with production from Seely Oil Company's McElvain "A" Federal Well No. 1 at production facilities located on the NE/4 of the NE/4 of Section 30, T18S, R34E, NMPM.

Production from each well will be prorated on the basis of well tests by Seely Oil Company.

Oil is being sold to Sunoco via truck, casing head gas is being sold to Conoco through an off-lease meter located on the SW/4 of the SE/4 of Section 19, T18S, R34E, NMPM, and produced water is being disposed through Seely Oil Company's EK Queen Unit water injection facilities located on the SW/4 of the SE/4 of Section 13, T18S, R34E, NMPM.

14. I hereby certify that the foregoing is true and correct
