13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Texland Petroleum - Hobbs, L.L.C. proposes to lay a 2" injection line of 1,144.4 feet from the Bowers "A" federal Well #39 to the Bowers "A" Federal Well #41, as staked. The surface disturbance will be a clearance of 1,144.4' long x 50' wide will be dragged and a 12" deep ditch dug where the line will be buried. After completion the site will be left in an aesthetically pleasing condition as possible. Archeological Survey Report as been filed and a survey plat is attached.

14. I hereby certify that the foregoing is true and correct
