

MULTI-POINT SURFACE USE AND OPERATIONS PLAN

RAY WESTALL
POLEWSKI FEDERAL NO. 3

This plan is submitted with form 3160-3, Application for Permit to Drill, covering the above described well. The purpose of this plan is to describe the location of the proposed well, the proposed construction activities and operations plan, the magnitude of surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operations, so that a complete appraisal can be made of the environmental effect associated with the operation.

1. Existing Roads.

Exhibit A is a portion of a county road map showing the roads in the vicinity of the proposed location.

2. Planned Access Road.

The access road will start on the Polewski Fed. #1 location and go south approx 1000'.

Directions:

Proceed west from Loco Hills to state road 529. Go east approximately 7 miles, turn south on county road 126 for 11 miles, turn west on caliche road .75 miles, to the Polewski Fed. #1 location. The new road will start here and go south.

3. Location of Existing Wells.

Exhibit B is a topo map showing the existing wells.

4. Location of Existing/or proposed Facilities:

If productive a 3" SDR 7 poly line will be laid along existing ROW the battery located on the Polewski Federal No.1 location. A 4 phase power line and poles will be routed along the existing ROW parallelling the road.

5. Location and Type of Water Supply.

It is planned to drill the proposed well with fresh and brine water system. The water will be obtained from commercial sources and will be hauled to the location by truck.
