Location: OK

~~Remarks:~~ This well was T.A. 6-28-59. 7" csg was
~~Necessary Action:~~ set at 1160 w/ 100 exp. On 6-13-61, location is clear
and pits OK. There is a 7" drill plug in top of 7" csg

Remarks: and a 4" vent in bull plug. A little gas is
escaping from vent. The pumpman on the lease
said Roy Smith started working in a rig about
Dec. 1960, to work on this well but before he
got all the rig on location, plans were changed
and the rig was moved out to drill another
well. Nothing ever done at this well.
