Re: Form C-104

Gentlemen:

We are returning for correction Form C-104 submitted on your Federal #1-X in Unit F of Section 5-18-32. Please note that you have shown this as a Pearsall Extension, while it is within the horizontal limits of the Pearsall pool; however, since you have not given the name of the pay, we cannot tell whether or not it will be a Pearsall well.

You also have failed to give the date the oil was first run to the tanks. This information will also be necessary before an allowable can be assigned the well, since this is the date on which the allowable is effective.

Prompt attention will be given your corrected forms for approval.

Yours very truly,

OIL CONSERVATION COMMISSION

Dear Sir:

Attention: Mr. J. L. Hirsch

Gentlemen:

We are returning for correction Form 1-104 under the name  
Federal #1-X in Unit 7 of Section 5-18-34. Please note we have  
shown this as a Gerrall Extension, while it is a Gerrall  
Extension of the Gerrall pool; however, since you have given the name  
of the key, we cannot tell whether or not it is a Gerrall well.

You also have failed to give the date the well was first  
drilled. This information will also be required in the future  
and be assigned the well, since this is the date the well was  
drilled.

Prompt attention will be given your corrected forms for approval.

Yours very truly,

JIL CONSERVATION COMMISSION

Geologist  
J. L. Hirsch
