The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We drilled this well to a total depth of 4633 feet to test the Queen formation without encountering oil or gas and have plugged per oral permission as follows:

Cement plug 4632 to 4543

Cement plug 4150 to 4060

Cement plug 2475 to 2385

Cement plug 1425 to 1335

Cement plug 610 to 560

Filled annular space between all plugs with mud. Cemented cellar, put up regulation marker and cleaned up location.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
