Gentlemen:

On September 23, 1959 a survey was made to locate your No. 1 well on the West Tonto Lease in Section 18, Township 19 South, Range 33 East, N. Mex. P.M., in Lea County.

A flag was set on the G.L.O. brass cap for the North west corner of section 18. The transit was set over the quarter corner brass cap common to sections 13 and 18. Then we chained North from the quarter corner a distance of 660 feet, set a wooden hub; thence S89°54'E a distance of 689.7 feet to the location site. Then as a check we chained North 1980 feet; thence N89°54'W 689 feet to the brass cap for the Northwest corner of section 18, tying back in within 0.7 feet.

I hereby certify that the foregoing survey was made in the field under my supervision and that the same is true and correct to the best of my knowledge and belief.

Respectfully submitted

  
John W. West
