(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

Well No. 1 is located 500 ft. from N line and 1980 ft. from W line of sec. 19
12S 33E 14PM
 (Twp.) (Range) (Meridian)
Wildcat Lea New Mexico
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3625 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We have abandoned this well. We set a cement plug from 1210' to 1270'. We cut the 3 5/8" casing at approximately 500' and pulled. We then set a cement plug at 55 feet and filled the hole to the top, placing a 4-inch pipe marker at the top of the cement. We have cleaned the location and left the ground in its original condition.

ILLEGIBLE

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
