# THEORY OF THE EARTH

CHAPTER I

## THE EARTH AND ITS HISTORY

The Earth is a planet of the solar system, and is the only one of which we have direct knowledge. It is the only one of which we have a complete knowledge of its history, and the only one of which we have a complete knowledge of its present state.

The Earth is a planet of the solar system, and is the only one of which we have direct knowledge. It is the only one of which we have a complete knowledge of its history, and the only one of which we have a complete knowledge of its present state. The Earth is a planet of the solar system, and is the only one of which we have direct knowledge. It is the only one of which we have a complete knowledge of its history, and the only one of which we have a complete knowledge of its present state.

The Earth is a planet of the solar system, and is the only one of which we have direct knowledge.

The Earth is a planet of the solar system, and is the only one of which we have direct knowledge.
