

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELL

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-offs, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations. The text also mentions that proper record-keeping is essential for identifying trends and making informed decisions.

2. The second part of the document outlines the various methods used to collect and analyze data. It describes how different types of information are gathered, such as through surveys, interviews, and observations. The text also discusses the importance of using appropriate statistical techniques to interpret the data correctly.

3. The third part of the document focuses on the role of technology in data management. It highlights how modern tools and software can help organizations store, organize, and analyze large amounts of data more efficiently. The text also mentions the importance of ensuring that data is secure and protected from unauthorized access.

4. The fourth part of the document discusses the challenges faced when working with data. It mentions issues such as data quality, missing information, and the complexity of analyzing large datasets. The text also suggests ways to overcome these challenges, such as by implementing strict data quality control measures and using advanced analytical techniques.

5. The fifth part of the document concludes by summarizing the key points discussed. It reiterates the importance of accurate record-keeping, effective data collection methods, the use of technology, and the need to address challenges. The text also provides some final thoughts on the overall importance of data in decision-making and organizational success.
