Re: Gas Pool Classification For
Lea "K" State Well No. 1, Unit L
Section 36, T-19-S, R-34-E
Lea County, New Mexico

Dear Mr. Maloney:

As requested in your letter of August 29, 1985, you will be permitted to produce the subject well as a wildcat gas well pending the deletion of the area from the Pearl Seven Rivers Oil Pool and the creation of a Seven Rivers Gas Pool with 160 acre spacing for the well.

You will be permitted to produce the well this way at your own risk, of course, pending approval of the creation of the new pool. If for any reason the approval is not forthcoming, any overproduction accrued during this period will have to be compensated for.

Yours very truly,

OIL CONSERVATION DIVISION
