Re: Form C-103-Report on Results of Plugging  
N. B. Hunt State E #1 NE NW 11-17-35

Dear Sir:

It has come to our attention that a letter which we directed to the Vickers Petroleum Company concerning the plugging report on the State E #1 in 11-17-35 should have been directed to you, since we have been informed that N. B. Hunt drilled this well under the Vickers bond.

We have received Form C-103 reporting the results of plugging on this well, however, this form cannot be signed until an inspection is made of this location to see that all pits have been filled and the location cleaned and levelled.

We shall appreciate it if you will call or write this office or Mr. L. A. Hanson, who is Oil and Gas Inspector at the Artesia office of the Commission, when this location is ready for inspection.

Yours very truly,

OIL CONSERVATION COMMISSION

A. L. Porter, Jr.
