17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Ref: Cellar closure and remediation

The cellar at 082 was excavated to a depth of 8'. Too rocky to dig deeper, and 1 TPH test done. A nondestructive examination (NDE) was done of surface and production equipment in cellar and found to be in good shape. Cellar was back-filled with clean sand and dilution was used on soil taken from cellar and tested for TPH and used to dress-off location.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
