RE: New Mexico AC State #1
Unit H, Sec. 22, T17S, R35E

Gentlemen:

We have received your C-103 indicating you plan to abandon the Atoka perforations in the above-referenced well and perforate the Upper Penn zone at 10,010-10515 feet. Should the perforations be commercial and you apply for an allowable you will need to submit an acreage dedication plat, Form C-102, for the Upper Penn. According to our records an Upper Penn completion will be classified as a wildcat.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
