Attn: Mr. A. L. Porter, Jr.

Re: Dual complete State "K" No. 1  
Vacuum Pool, Lea County, New Mexico

Gentlemen:

It is respectfully requested that the Oil Conservation Commission schedule an examiner hearing at an early date in Santa Fe, New Mexico, to consider our application to dually complete the State "K" No. 1, located 1980' FNL, 1980' FEL, Section 27, T-17-S, R-35-E, Vacuum Pool, Lea County, New Mexico. The attached Exhibit "No. 1" shows the location of Cities Service Oil Company State "K" lease together with all offset wells and their operators.

Cities Service proposes to dually complete the State "K" No. 1 in the following manner:

1. Equip the well as indicated on the attached schematic diagram.
2. Produce oil from the Seven Rivers formation through 2" tubing from perforated intervals 3050' to 3057'.
3. Produce oil from the San Andres formation from open hole 4190' to 4625'.

A copy of this application with plat and schematic diagram included has been sent by registered mail to each of the offset operators named on the attached mailing list.

Very truly yours,

E. F. Motter  
District Engineer

### INSTRUCTIONS

This form shall be executed and filed in quadruplicate with the Oil Conservation Commission at Santa Fe, New Mexico, covering each unit from which oil is produced. A separate certificate shall be filed for each transporter authorized to transport oil from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one month the operator shall, in lieu of filing a new certificate, notify the Oil Conservation Commission at Santa Fe, New Mexico, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil to be moved by the transporter temporarily moving oil from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (b) The transporter is changed or
- (c) The permit is cancelled by the Commission

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.
