

NEW MEXICO OIL CONSERVATION COMMISSION

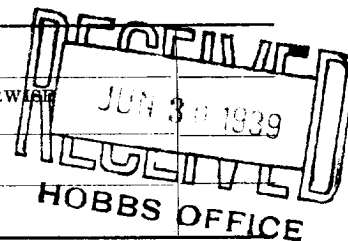

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELL

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-offs, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

Title

THE HISTORY OF THE UNITED STATES

OF THE UNITED STATES OF AMERICA

The history of the United States is a story of a young nation that grew from a small group of colonies into a powerful world superpower. It is a story of the struggles and triumphs of a people who have shaped the course of human history.

The story begins with the first settlers who came to the New World in search of a better life.

They found a land of opportunity and challenge, a land where they could build a new society.

Over the years, the colonies grew and developed, and the people who lived there began to see themselves as a distinct nation.

They fought for their rights and their freedom, and they won. They became the United States of America.

The story of the United States is a story of a people who have always been on the cutting edge of progress and innovation.

They have been the first to explore new frontiers, to develop new technologies, and to create new ways of life.

They have been the first to dream of a better world, and they have worked hard to make it a reality.

The story of the United States is a story of a people who have always been united by a common purpose and a common destiny.

They have been the first to stand up for their principles and their values, and they have been the first to lead the world by example.

The story of the United States is a story of a people who have always been a force for good in the world.

They have been the first to fight for peace and justice, and they have been the first to build a better world for all.

The story of the United States is a story of a people who have always been a source of inspiration and hope for the rest of the world.

They have been the first to show us what is possible, and they have been the first to show us the way forward.

The story of the United States is a story of a people who have always been a part of the human story.

They have been the first to write the story of a new nation, and they have been the first to make it a reality.
