THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind is, what was the cause of the origin of the earth? The answer to this question is, that the earth was created by the power of God, and that it was created out of nothing.

THE second question which presents itself to the mind is, what was the state of the earth at the time of its creation?

THE answer to this question is, that the earth was in a state of confusion and darkness, and that it was covered with a deep sea of water.

THE third question which presents itself to the mind is, what was the duration of the earth's existence in this state?

THE answer to this question is, that the earth existed in this state for a period of six days, and that it was then created in its present state.

THE fourth question which presents itself to the mind is, what was the cause of the earth's present state?

THE answer to this question is, that the earth's present state is the result of the power of God, and that it is the result of the power of God's word.

THE fifth question which presents itself to the mind is, what was the cause of the earth's present state?

THE answer to this question is, that the earth's present state is the result of the power of God, and that it is the result of the power of God's word.

THE sixth question which presents itself to the mind is, what was the cause of the earth's present state?

THE answer to this question is, that the earth's present state is the result of the power of God, and that it is the result of the power of God's word.
