March 24, 1960

New Mexico Oil Conservation Commission  
P. O. Box 2045  
Hobbs, New Mexico

Attention: Mr. J. D. Ramey

Dear Sir:

Reference is made to your recent telephone conversation with Mr. B. G. Howard, Hobbs District Superintendent of The Ohio Oil Company, wherein permission was granted to The Ohio Oil Company to test their State NPA, Well No. 1, Section 6, 19S, R.35E, Undesignated Pool, Lea County, New Mexico.

This test is being conducted in order to better evaluate the Bend Gas Reservoir underlying the subject lease. The proposed test procedure is as follows: Flow the well through two stage separation facilities at a rate of approximately 500 MCF gas per day for a maximum of 15 days. All of the gas produced during the test period will be flared and condensate stored in test tanks. This test has been scheduled to begin on March 28, 1960.

Sincerely,

THE OHIO OIL COMPANY  
Engineering Department

Ned R. Daniels  
Petroleum Engineer
