THE HISTORY OF THE UNITED STATES

OF THE

REPUBLIC OF THE UNITED STATES

The history of the United States is a story of the growth of a nation from a small group of colonies to a great republic. It is a story of the struggles of the people to secure their rights and liberties, and of the efforts of the government to maintain the union and promote the welfare of the people.

The first step in the history of the United States was the discovery of the continent by Christopher Columbus in 1492.

The next step was the establishment of the first colonies by the English in 1607.

The third step was the signing of the Declaration of Independence in 1776.

The fourth step was the signing of the Constitution in 1787, which established the framework of the government.

The fifth step was the signing of the Bill of Rights in 1791, which guaranteed the rights of the people.

The sixth step was the signing of the Emancipation Proclamation in 1863, which freed the slaves.

The seventh step was the signing of the Reconstruction Act in 1867, which began the process of rebuilding the South.

The eighth step was the signing of the Civil Rights Act in 1964, which ended segregation.

The ninth step was the signing of the Voting Rights Act in 1965, which gave the right to vote to all citizens.

The tenth step was the signing of the Equal Housing Act in 1968, which ended discrimination in housing.

The eleventh step was the signing of the Clean Air Act in 1970, which protected the environment.

The twelfth step was the signing of the Clean Water Act in 1972, which protected the water supply.

The thirteenth step was the signing of the Endangered Species Act in 1973, which protected the most vulnerable plants and animals.

The fourteenth step was the signing of the National Endowment for the Arts in 1965, which supported the arts.

The fifteenth step was the signing of the National Endowment for the Humanities in 1965, which supported the humanities.
